

AIR CARE *Solutions*

Cherri-D™ HEAVY-DUTY CHERRY DEODORIZER

- Strong cherry scent combats the most putrid odors
- Contains odor-eliminating SE-500® additive
- Designed for use in a variety of applications with long-lasting results

CARE FOR WORK ENVIRONMENTS®

Cherri-D™

HEAVY-DUTY CHERRY DEODORIZER

LONG-LASTING ODOR CONTROL

Cherri-D controls offensive odors common to sewage treatment plants, lift stations, holding tanks, sludge drying beds, garbage containers, refuse containers and land fills. Our super-concentrated, emulsifiable formula mixes with water on contact, which spreads a deodorizing effect throughout the entire system for longer lasting odor control. Only a small amount is needed to overcome the most powerful, obnoxious odors. The slow-release formula emits a pleasant cherry aroma while continuously eliminating odors both in the air and at the source. Contains odor-eliminating technology, SE-500® to neutralize odors at the molecular level.

EASY APPLICATIONS

Drip Cherri-D directly into sewage lines, filter screens, sludge beds, septic tanks, plant influent or land fills. To assure the proper, yet most economical and effective odor control, apply Cherri-D through State's 24/7™ automated air care pump. Adjust the State 24/7 pump to drip or spray Cherri-D as needed for odor control.

AIR QUALITY ENHANCEMENT SERVICE

We offer several air quality enhancement strategies to meet the specific needs of your facility. Your State Industrial Products Account Manager will survey your facility with you and recommend the combination of odor control solutions that best address your complete needs.

DIRECTIONS FOR USE:

Cherri-D is designed to be used at full strength. No dilution is typically required. Apply Cherri-D through State 24/7 air care pump for continuous control of foul odors.

APPLICATION:

- Drip or spray Cherri-D directly on the odor source.
- For holding tanks, sewage treatment, or other water system applications, drip Cherri-D directly into the system water.
- For sludge drying beds, garbage containers, refuse containers, or other dry waste, apply Cherri-D in a heavy spray using a trigger sprayer, pump-up sprayer, or State 24/7™ automated air care spray system.
- For treatment of air streams, spray or fog Cherri-D into the air. For light applications, Cherri-D can be diluted with water as needed.
- Amount will vary based on application.

Please review label and SDS for all product directions, precautions, and first aid information.

TECHNICAL DATA:

STATE: clear liquid

COLOR: colorless to light yellow

ODOR: cherry

WEIGHT PER GALLON: 8.4 pounds

FLASH POINT: > 200°F

SHELF LIFE: 2 years

pH: approximately 7.0
