Avance
Warewashing Solutions®

FREEZER CLEANER

- Cleans without defrosting
- No slippery residue
- Ideal for walk-in coolers, freezers and a variety of other cold storage areas

CARE FOR WORK ENVIRONMENTS®

FREEZER CLEANER

LOW TEMP FUNCTIONALITY

Built-in freezing point suppressants work to lower freezing point of Avance Freezer Cleaner, making it effective at very cold temperatures, down to -15°F (-26°C). Ordinary cleaners lose power and cannot clean properly in cold temperatures.

HEAVY DUTY CLEANING

Avance Freezer Cleaner uses a special formulation of detergents that cleans dirt and grease through emulsification. Residues may then be picked up with automatic scrubbing equipment or industrial wet/dry vacuums.

VERSATILE

This water soluble cleaner is perfect for use on floors in walk-in coolers, freezers and all other cold storage areas.

DIRECTIONS

This product may be used in temperatures as low as -15°F (-26°C). For additional economy at higher temperatures; product may be diluted with water. At a dilution ratio of 1:1 with water, the product may be used in temperatures as low as 8°F (-13°C).

Sweep trash and loose soils from floor. Apply product using a mop bucket and a dry mop. Allow product to work for at least 10-15 minutes. Scrub heavily soiled areas. Remove excess product from floor with mop and then dry mop again.

NOTE:

Freezer floors are typically colder than the air temperature. For best results, measure floor temperature or assume floor is 10°F colder than air temperature.

TECHNICAL DATA

APPEARANCE: clear blue liquid

ODOR: solvent

DENSITY: 8.6 lbs/gal

pH: approximately 3.0

FOAM: low
