

# CLEANER *Solutions*

## **Mint Action™** BOWL & URINAL CLEANER

- Powerful formula quickly removes water lines, stains, encrusted deposits, lime and uric acid salt deposits
- Thickened for superior clinging action resulting in less scrubbing
- Leaves behind a pleasant mint aroma

CARE FOR WORK ENVIRONMENTS®

# Mint Action™

## BOWL & URINAL CLEANER

### EASY TO USE

Squirt control cap permits Mint Action™ to reach the hard-to-get-at areas under bowl rims and urinal lips. It quickly removes water lines, rust stains and encrusted deposits.

### PLEASANT MINT AROMA

The mint aroma lasts for hours without the irritating harsh acid fumes common with ordinary cleaners. Surfaces are left deodorized and fresh smelling.

### ADVANCED TECHNOLOGY

This thickened formula clings while it cleans and continues to work through repeated flushings. Formula is designed for greater safety on the metals in plumbing systems, yet powerful enough to remove tough lime and uric acid salt deposits. Formula contains 35% active ingredients to maximize cleaning time. Mint Action is specially formulated to clean on contact with minimum scrubbing.

When used as directed, Mint Action will not harm iron, copper or steel plumbing systems. However, Mint Action is not to be used on chrome fixtures.

### DIRECTIONS FOR USE

**FOR TOILETS:** Squirt a small stream of Mint Action over the inside bowl area. Simply spread around the bowl with a swab mop. Mint Action clings to the bowl. Be sure to swab under the rim where scum accumulates. Wipe around the fixture exterior as well.

**FOR URINALS:** Squirt a small stream (2 oz.) of Mint Action on the inside urinal walls. Spread around the surface with a swab mop. It clings to the walls of the urinal, cleaning as it remains in contact with the surface. Be sure to cover water outlets and grooves along walls. Allow 4 to 5 minutes for Mint Action to work. Then flush.

### TECHNICAL DATA

**APPEARANCE:** a green clear viscous liquid

**ODOR:** mint aroma

**ACID TYPE:** organic and inorganic

**SPECIFIC GRAVITY:** 1.152

**WEIGHT PER GALLON:** 9.61lbs

**VISCOSITY:** 75-165 centipose

**DILUTION:** use full strength

**pH:** less than 1.0 (acid)

**CORROSION INHIBITORS PRESENT:** yes

**URIC ACID SALT REMOVERS:** present

**RUST REMOVERS:** present

**SCALE REMOVERS:** present

**PERFORMANCE IN HARD WATER:** excellent

**EMULSIFICATION:** excellent
